Professional Summary

Deputy Manager, ESG with 6+ years across ESG data operations, carbon emissions analytics and engineering quality compliance. Owned end-to-end GHG (Scope 1-3) data quality, methodology governance and reporting across 5,000+ companies at Morningstar Sustainalytics, acting as Carbon Data SME to Product and Technology teams and leading UAT for a new carbon data platform. Builds Power BI dashboards and Excel automation, defines data validation and governance frameworks, and coaches analysts. Working knowledge of GHG Protocol, IFRS S1/S2, CSRD/ESRS, CDP, TCFD and BRSR, with a focus on assurance-readiness and reporting controls. GARP SCR certified. Seeking to lead BCG's internal GHG measurement, reporting and net zero data foundations.

Education & Certifications

MBA, Finance,

Central University of Rajasthan

2020 – 2022

B. Tech, Mechanical Engineering,

Amity University Haryana

2012 – 2016

GARP – Sustainability & Climate Risk (SCR)

Physical & transition risk, TCFD alignment, climate scenario analysis, carbon markets, green finance, regulatory frameworks

Professional Experience

Deputy Manager, NSE

04/2026 – Present

- Review BRSR disclosures of listed companies to assess ESG risks, governance practices and environmental performance, supporting ESG ratings across E, S and G dimensions with consistent, well-documented data.
- Benchmark company ESG performance against sector peers, surfacing relative strengths and disclosure gaps for rating decisions.
- Assess sustainability related financial disclosures against IFRS S1 and S2, evaluating governance, strategy, risk management and metrics.
- Serve as client-facing point of contact on rating methodology, translating technical ESG findings into clear guidance for senior stakeholders.

Senior ESG Research Analyst, Morningstar

01/2025 – 04/2026

- Data product & engineering partnership: Acted as Carbon Data SME to Product and Technology teams, translating carbon disclosure and client requirements into structured specifications and owning carbon data integrity for the Low Carbon Transition Rating (LCTR), Sustainalytics' highest-grossing ESG product.
- Platform testing & assurance-readiness: Led UAT for a new carbon data platform, flagging 15+ data integrity issues ahead of rollout; reviewed internal controls over ESG and carbon data.
- Data governance & single source of truth: Owned data quality operations across 700–1,000 weekly exceptions, 1,000+ companies and 40+ metrics; redesigned the validation workflow with Excel-based analytical toolkits, cutting turnaround by 40%.
- Reporting dashboards & analytics: Designed Power BI + Excel dashboards tracking real-time data quality KPIs, reducing manual reporting effort by 60%.
- GHG methodology governance: Led calibration forums on Scope 3 edge cases and methodology disputes; co-owned quarterly revisions to the carbon guidance document standardising decisions across 20 analysts. Reviewed Scope 1–3 emissions for 1,000+ companies against GHG Protocol, PCAF and IPIECA.

CSRD Fundamentals

Double materiality assessment, ESRS standards, EU value chain disclosure, corporate reporting obligations

Core Competencies

Skills

- Team Management
- Project Management
- Stakeholder Management
- Sustainability Reporting
- Client Relationship Management

Reporting Frameworks

- GRI
- CDP
- SASB
- TCFD
- BRSR
- CSRD
- IFRS S1/S2
- GHG Protocol

Carbon & Climate Standards

- Scope 1, 2 & 3 GHG Accounting
- Carbon Data Management
- Climate Risk Assessment
- Net-Zero Roadmaps
- Energy & Emissions Tracking

Technical & Analytical

- MS Office
- Power BI
- Advanced Excel
- JIRA
- UAT & Platform Testing
- Carbon Data Platform
- Reporting Automation

- Team leadership: Mentored 5 junior analysts through structured coaching and performance frameworks, lifting output from 13 to 20 companies/day (+54%) at 100% quality.
- Stakeholder management: Managed engagements from scoping to delivery and owned inquiry resolution across 8 ESG products, cutting average resolution time by 40% (10 to 6 days).

ESG Research Analyst, *Morningstar*

06/2022 – 12/2024

- Delivered Scope 1–3 GHG emissions and ESG assessments for 5,000+ companies across 100+ sectors, validating disclosures against GHG Protocol, PCAF, ISO 14040, IPIECA, OGMP and CORSIA at 100% data accuracy.
- Automation & data quality: Built automated discrepancy-detection tools (Excel macros + Power BI), reducing analyst errors by 30% and strengthening pre-publication data governance.
- Contributed to cross-functional carbon calibration discussions and quarterly methodology guidance updates, improving consistency across the team.

Quality Engineer, *BorgWarner*

06/2018 – 06/2021

- Led ISO/TS 16949 quality compliance programmes, root cause analysis, and corrective actions across automotive production lines; delivered zero nonconformances across all customer and regulatory audits — a systems and compliance foundation that underpins rigorous ESG data governance

Strategy & Reporting Advisor (Pro Bono),

The Akshaya Patra Foundation

2025

- Designed an ESG reporting framework from scratch -materiality assessment, stakeholder engagement structure, and GRI/BRSR-aligned KPI architecture - for an organization with no existing sustainability infrastructure. Direct insight into what climate tech's target customers actually need.
- Supported preparation of the organisation's first sustainability report, covering environmental, social, and governance disclosures.
- Advised senior management on ESG performance indicators and disclosure obligations.
